

EDMONDS STREET WATERFRONT CONNECTOR

Creating safer access to our waterfront

COMMUNITY MEETING

Wednesday

Feb. 28

6 – 8 p.m.

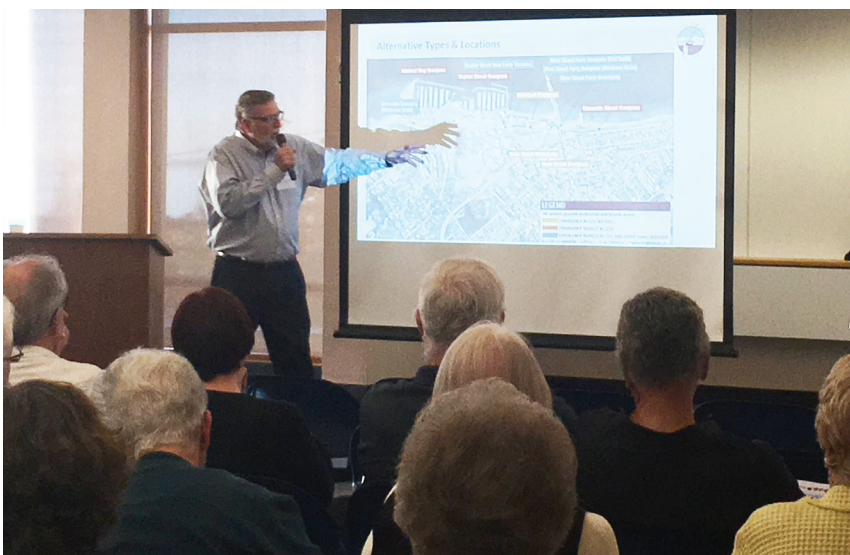

Edmonds Library, Plaza Room

650 Main St

Presentation starts at 6:15

Based on the outcome of the Waterfront At-Grade Crossings Alternatives Analysis in 2016, the City of Edmonds is beginning to design a single-lane emergency vehicle and pedestrian overpass that will connect Edmonds Street to the Brackett's Landing North parking lot.

THE WATERFRONT CONNECTOR will be a long-term solution to at-grade railroad crossing conflicts, allowing pedestrians and emergency vehicles safe and direct access to the waterfront.

JOIN US AT THE MEETING TO:

- Learn about the project
- Meet and talk to project staff
- Share your thoughts on preliminary design concepts

CAN'T COME BUT WANT TO PARTICIPATE?

Visit our website to learn more and share your thoughts
